# NBS OPPORTUNITY SCAN

*Identifying nature-based solutions in  
cities*

# GPNBS provides **technical support to integrate NBS at scale**

## PILLAR 1 KNOWLEDGE

Key knowledge adopted by  
**Governments and Industry Leaders**  
(more than **75,000 downloads**)

## PILLAR 2 OPERATIONS

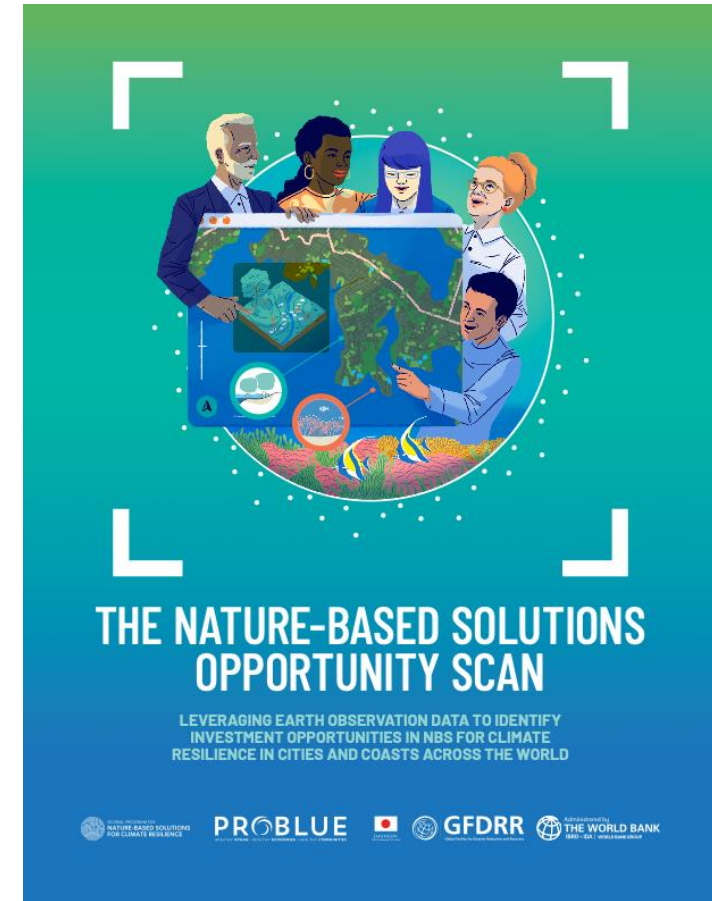

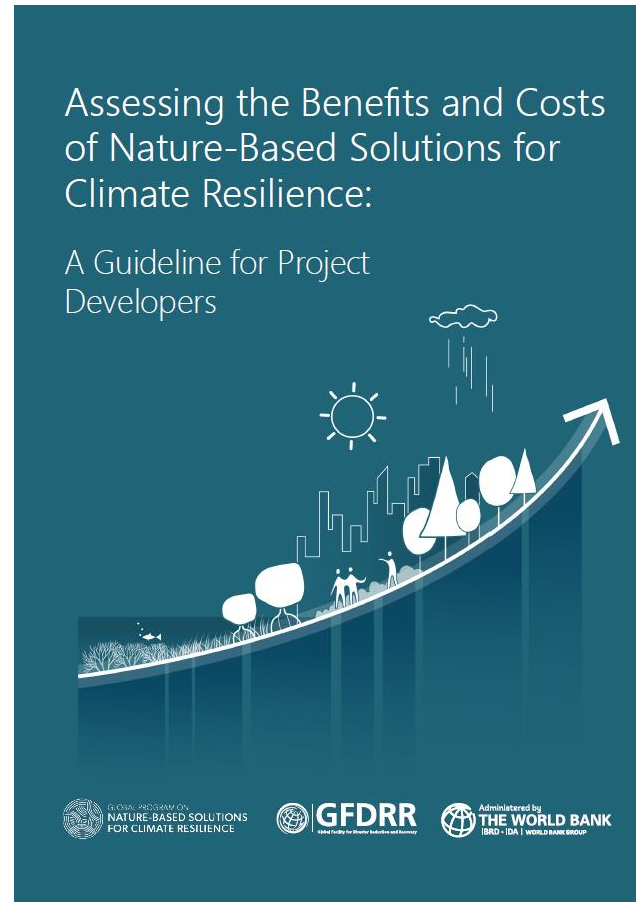

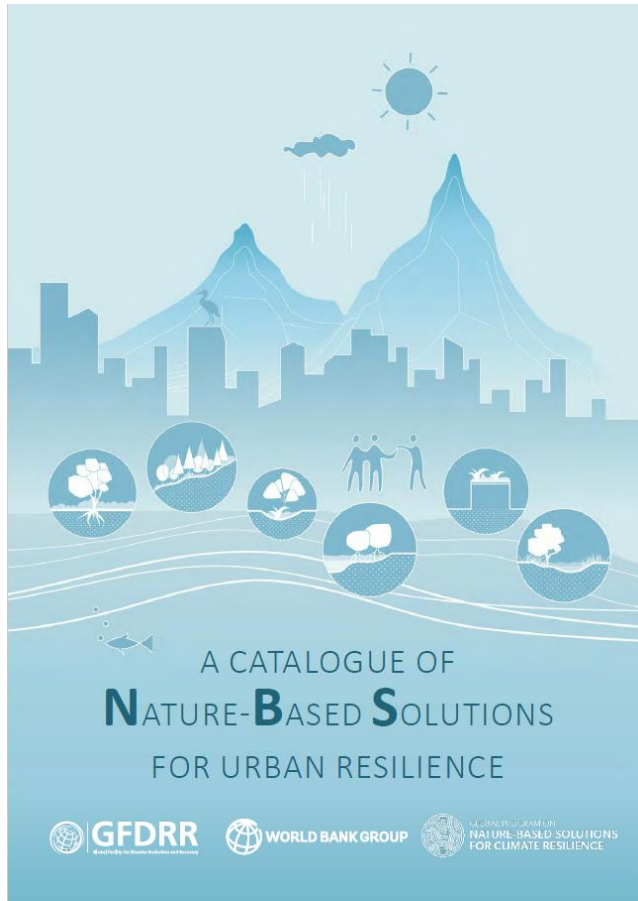

Supported **80 projects**,  
**40 active engagements**  
per fiscal year

## PILLAR 3 PARTNERSHIPS

**30 active** technical partnerships

# NBS knowledge

# Supporting Identification of NBS Investments

- **Spatial identification** of NBS investment opportunities
- Applicable in **any city in the world**
  - Based on **globally available** geospatial (earth observation) **data**
- Designed as on-demand service with rapid **4–6-week turnaround**
- **Conversation starter with governments** in projects investing in NBS

## THE NATURE-BASED SOLUTIONS OPPORTUNITY SCAN

LEVERAGING EARTH OBSERVATION DATA TO IDENTIFY INVESTMENT OPPORTUNITIES IN NBS FOR CLIMATE RESILIENCE IN CITIES AND COASTS ACROSS THE WORLD

STEP

# Understanding the Problem

# 1

STEP

# Mapping NBS Suitability

# 2

STEP

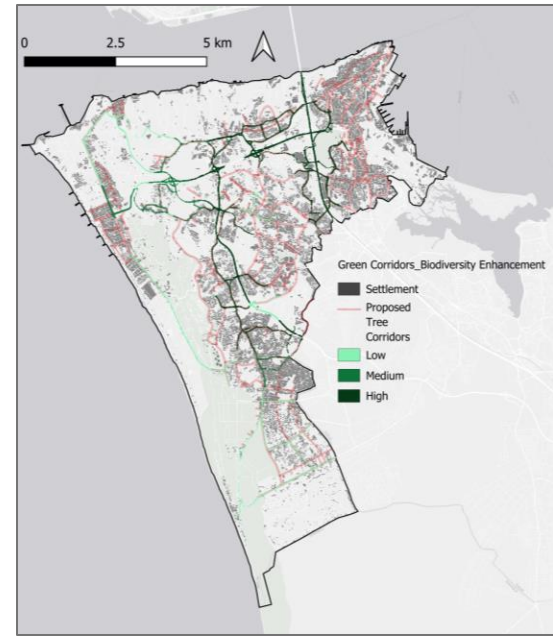

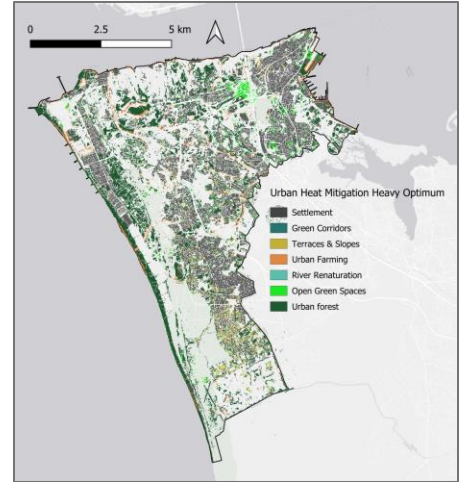

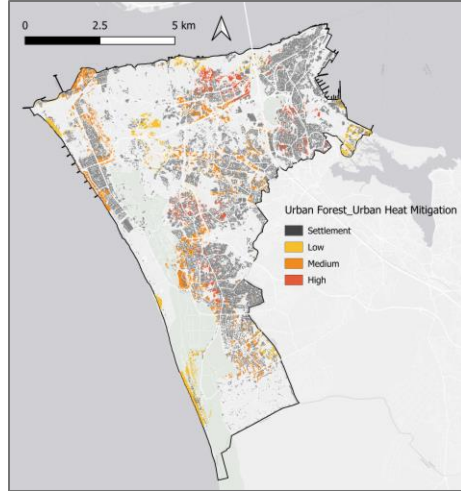

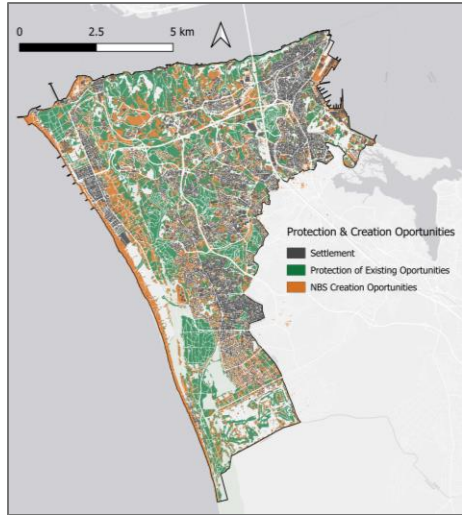

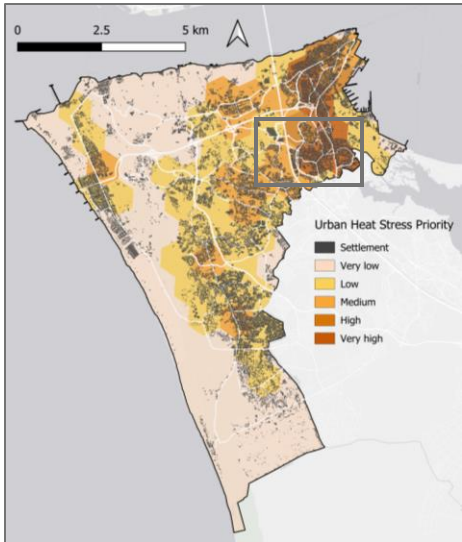

# Modeling NBS Benefits

# 3

STEP

# Decision Support

# 4

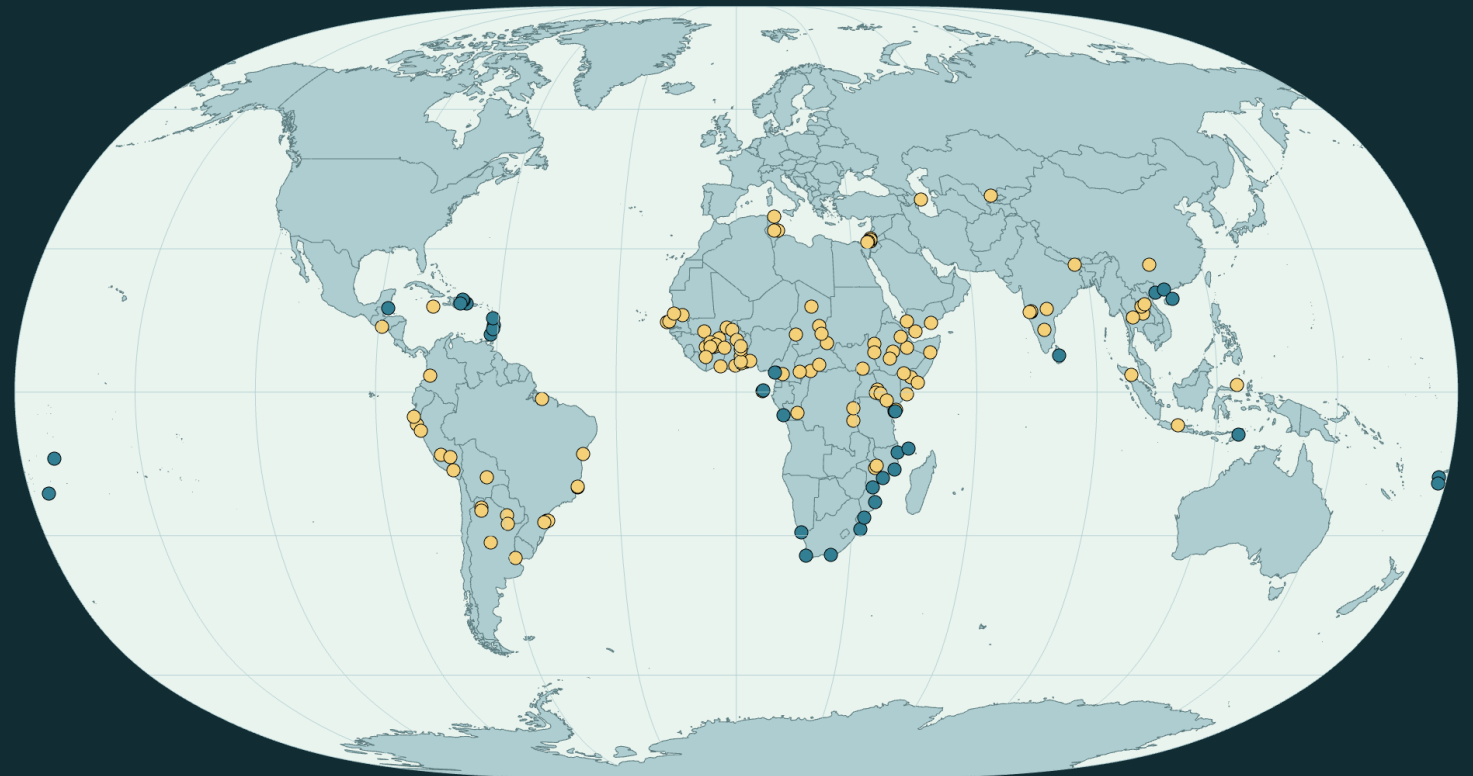

# Impact to Date

Delivered in more than **120 cities** in **45 countries**

Informed **\$1.8 billion** in World Bank project components containing NBS

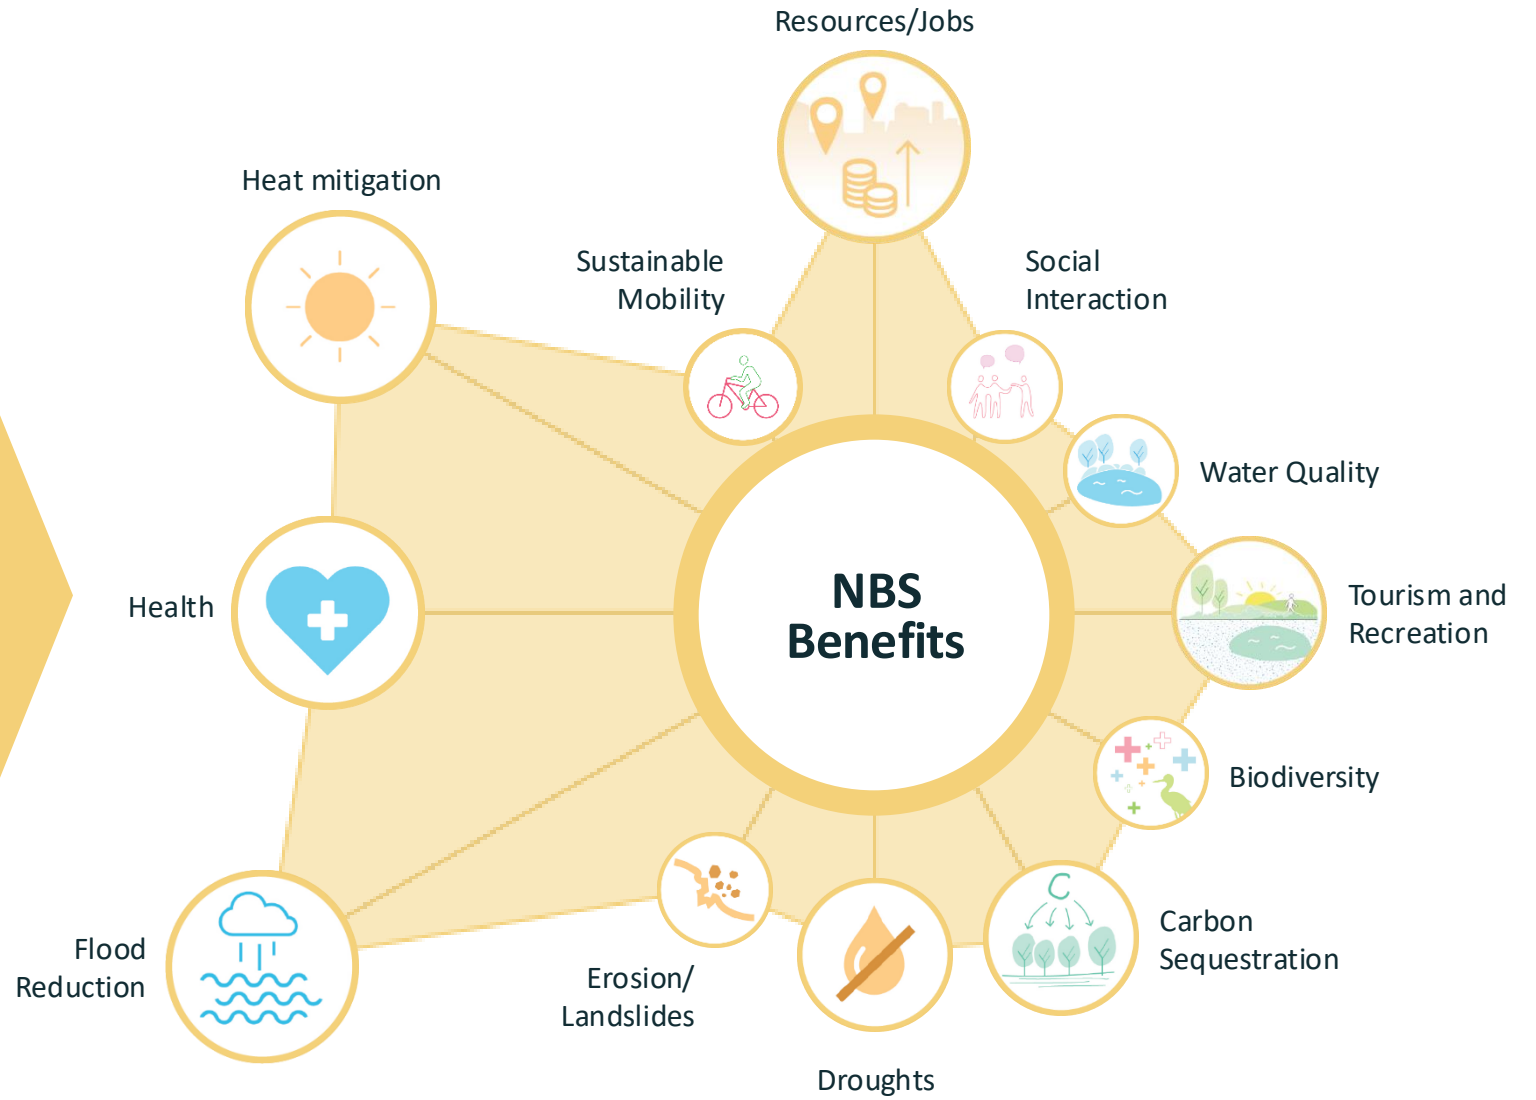

Identified investments for **11 out of the 40** World Bank projects with NBS components approved in 2023 and 2024

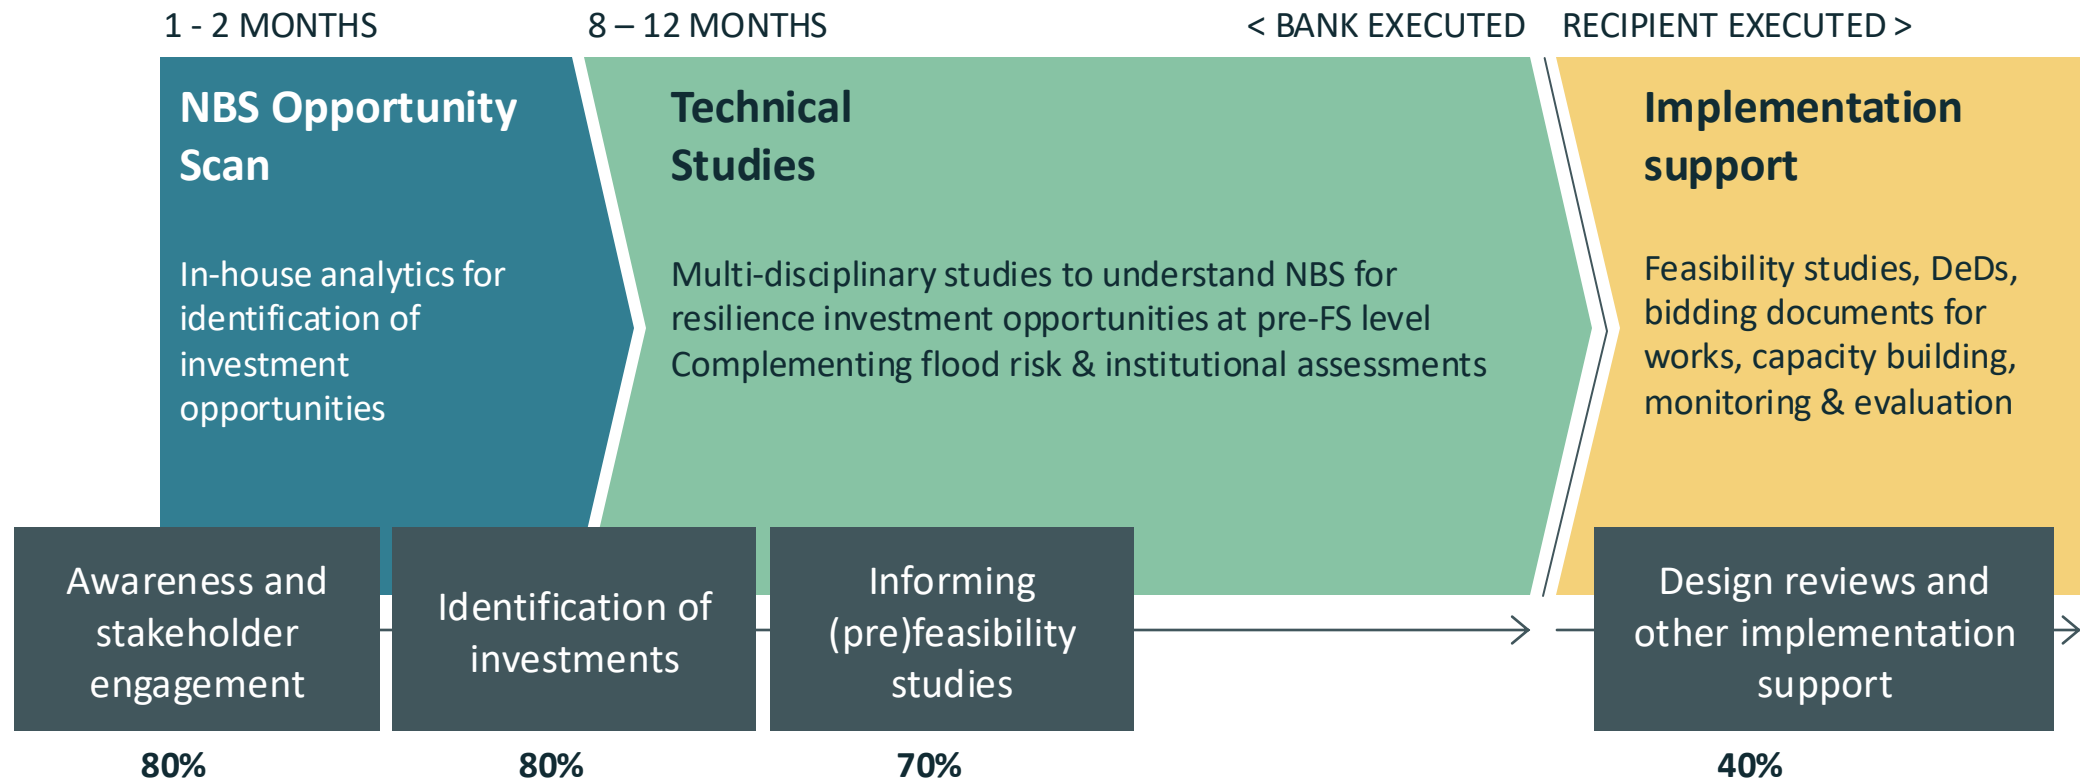

● Coastal NBSOS

● Urban NBSOS

# NBS for What?

# How the NBSOS supports the integration of NBS

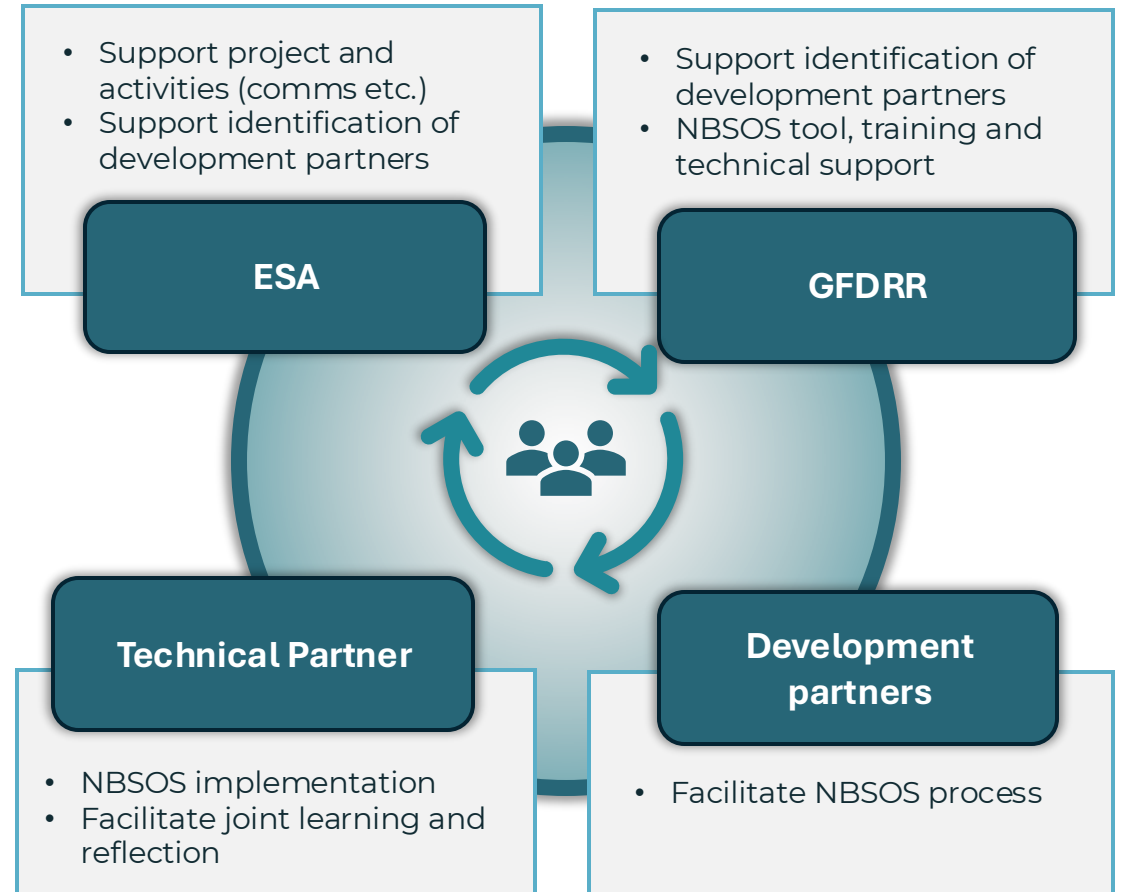

# NBSOS SCALE-UP

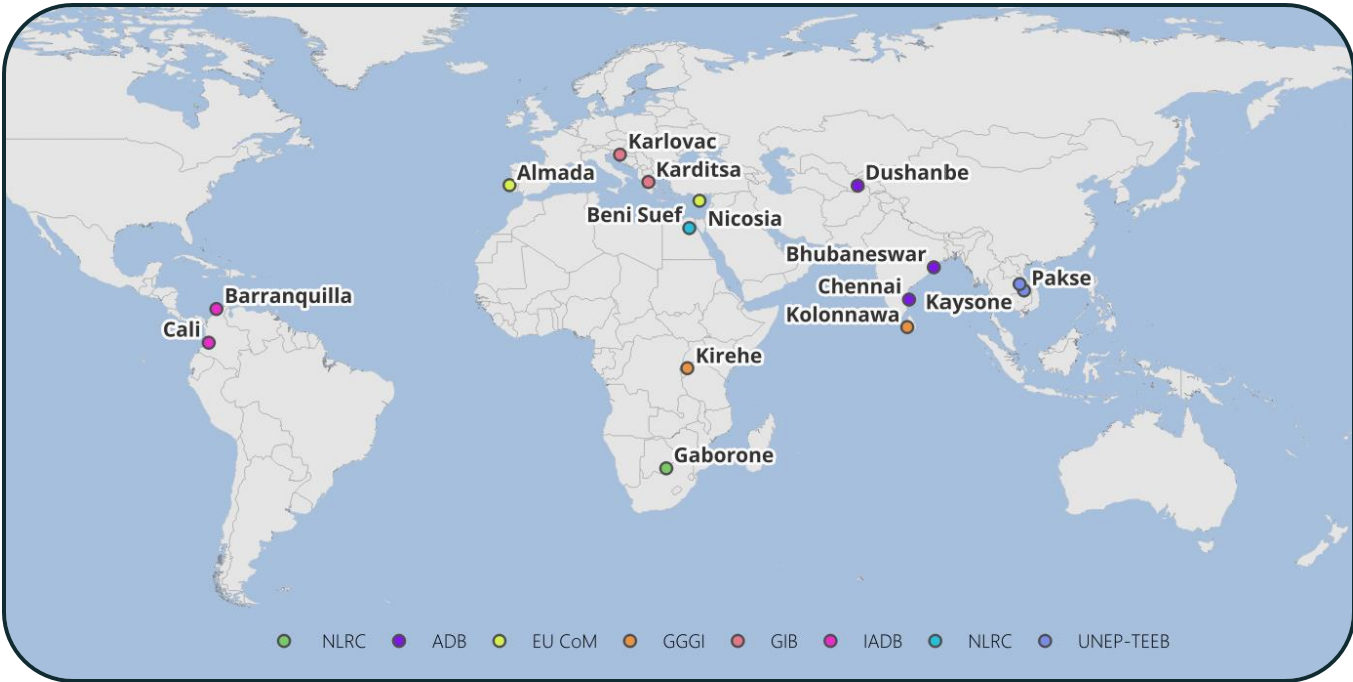

NBSOS as a service: Implementation of the NBSOS through a technical partner

Facilitate joint learning and reflection: Use case identification, best practices development, improvement and upscaling potential

Support work on public dissemination of the NBSOS, with support by the Gates Foundation

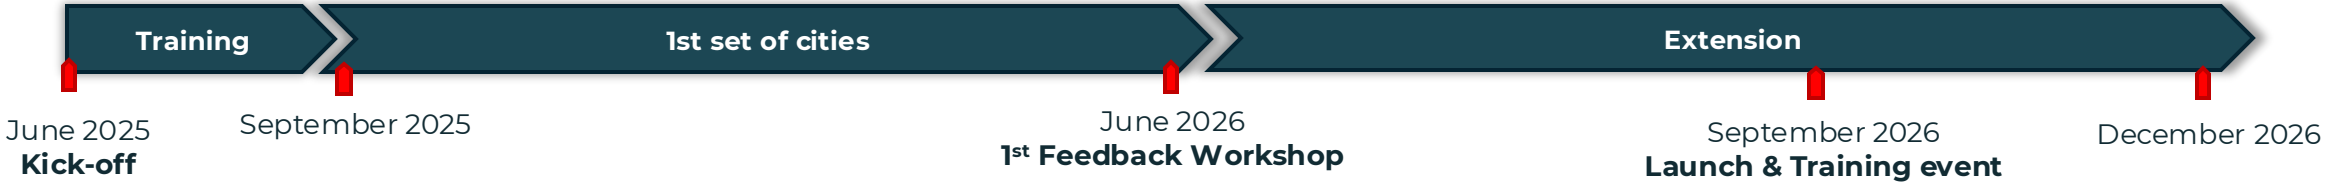

# NBSOS SCALE-UP

Extension with additional 7-10 cities: 2 slots for GEF

Dissemination of the NBSOS as digital public good

NBSOS Training Event
