

# Urban Nature Program

---

# Urban Nature Program

# Vision and Objectives

## Scaling up financing

- supporting FI's portfolio development
- Engaging private sector

## Raising ambition :

- Engaging city leadership for the Global Biodiversity Framework; and Nature champion under the climate process

## Planning and investing in nature-positive and resilience urban development

## Building a strong network and partnership

- Lighthouse cities/project cities
- Partner Organizations/Financial institutions

## Being a global thought leadership

- Flagship reports
- Technical reports
- Good practice

# Main activities delivered through three layers

## International meetings

- Growing into a major gathering of cities, organizations, and experts in this area

## Leadership Forum

- Mayors and leadership on the margin of CBD CoPs and UNFCCC CoPs

## Deep Dive Learning and training

- Oriented hands-on training

## Knowledge Products and portfolio support

- In collaboration with partners and MDBs, providing targeted support
