- Public-Private Partnership (PPP) for Public Lighting Services: **Forecast of a 64% reduction in energy consumption**

# Environmental Agreements and Commitments focused on the biodiversity, climate and resilience agenda

---

Aliança pela  
Ação Climática

**National alliances** dedicated to taking systematic measures and increasing public support in tackling the global climate crisis, in order to help countries comply with the commitments agreed in the Paris Agreement.

**The São Paulo Environmental Agreement** is an initiative of the State of São Paulo and aims to encourage companies from São Paulo, associations and municipalities to assume voluntary commitments to reduce greenhouse gas emissions, in order to contain global warming below 1.5°C.

**RACE TO ZERO**

**Race To Zero** is a global campaign of ONU that seeks to engage governments, businesses, investors, academics and civil society leaders to achieve zero net greenhouse gas emissions by 2050.

# Environmental Agreements and Commitments focused on the biodiversity, climate and resilience agenda

---

Subnational Governments around the world to contribute to the negotiation of the New Post-2020 Global Biodiversity Framework.

**Declaration of Barranquilla:** an agreement that included 17 cities to create a new urban development model that takes biodiversity and sustainability into account, through the creation of the Network of BiodiverCities in Latin America and the Caribbean.

**1st Brazil Resilience Center by the Global Coordination Committee of the Making Cities Resilient Initiative (MCR2030)** and the United Nations Office for Disaster Risk Reduction - UNDRR

**Race to Resilience** is a global campaign of ONU to catalyze a sea change in climate resilience ambition, putting people and nature first in pursuit of a resilient world.
