HOW TO UNDERTAKE REAL ESTATE MARKET ANALYSIS

This tool aids in establishing the real estate knowledge required to carry out a successful TOD development. Through the use of the tool, the market area with the appropriate demand can be determined. It can also be better understood what development is most in demand, based on demographic, geographic and economic trends.

Type: Step-by-Step Guide)
UNDERSTAND THE REGIONAL OR CITY-WIDE SETTING

To understand and compare the regional or city-wide economic trends with conditions along the TOD corridor or station area where the project is proposed.

DATA SOURCES
- City-level Census Information
- World Bank Open Data (https://datacatalog.worldbank.org/)
- Municipalities (Building Permit/Plan Approval Departments)
- Local Real Estate Industry Associations
- Interviews with local property brokers

DELINEATE THE TOD MARKET AREA BOUNDARY

To define the two boundaries of the TOD Market Area: Primary (3 mile/5 km) and Secondary Trade Area (5 mile/8 km) to understand the market’s potential size, catchment and expenditure potential. Factors that affect the size and shape include:

DATA SOURCES
- Satellite Imagery | Google Earth
- GIS data
- Mobility/Transport Studies
- As per approved Master Plan/Development Plan
03 CONDUCT A DEMAND & SUPPLY ANALYSIS

To understand the demand and supply within the TOD Market Area with respect to different development components. Create an economic profile to understand the purchasing power and prepare a competition analysis to understand the risk and revenue potential for different types of development components.

- Zoning and Planning Regulations
- Local Political Willingness
- Land Ownership and Land Control Options
- Environmental & Infrastructure Conditions
- Size/Program Area
- Potential Synergies with surrounding land uses

05 PREPARE A DEVELOPMENT PROFORMA

Prepare a Development Proforma that includes Development Costs, Potential Income and Cash Flow over the project timeline, presenting finally the Net Present Value (NPV) and Internal Rate of Return (IRR):
